PROJECTS

DrDanna LMS — *DrDanna.ir*

Developed a learning management system (LMS) to facilitate mentorship, courses, and educational resources using React.js. Integrated a user-friendly interface for streamlined access to learning materials and mentor-mentee interaction. Emphasized responsive design and seamless navigation to enhance user experience and engagement.

Centlab

Developed CentLab, an e-commerce platform for lab experiment scheduling and material purchases. Focused on creating dynamic, responsive forms for multi-equipment experiments and a seamless inventory management UI, enhancing user experience and operational efficiency.

Pertask

Developed a task management system for tracking work hours and staff performance, with exportable HR tools. Created an admin dashboard for CRUD operations, task filtering, and customizable widgets. Integrated real-time API updates with backend collaboration.

Sepehr Saya Airtaxi

Built a web application for booking flight tickets and purchasing aviation-related courses. Implemented an e-commerce system for course sales and added intuitive search and filtering for flights and courses.

Persian Gulf University, Bushehr — *Bachelor*

Branch: software development
